A New Learning Adventure — Science Lab!

Dunrovin Ranch has had the great pleasure of working with two scientists who are enamored with Montana's Big Skies at Night. Wildlife biologist and photographer extraordinaire John Ashley has spent the last several decades prowling Montana's mountains at night, in all seasons, to capture the awe and mystery of the night sky's many celestial displays. Meanwhile, University of Montana astronomer Diane Friend has spent those decades teaching people from all walks of life and with all levels of science background some of the night sky's secrets and myths. D@D is fortunate to have these two team up to present us some great photos, videos, experiments, and explanations about night skies.

The Aurora Borealis and Milky Way

Join John and Diane on Thursday, March 14 and 28, 2019 at 2PM to see terrific photos and videos of the aurora and the Milky Way. Let these two fun and engaging scientists take you by the hand to explore these phenomenon of our night sky.

You need only bring your senses of awe, humor, and curiosity!

Celebrating the Seasons—March Means SPRING

It is 4 degrees below zero with over a foot of fresh snow in the yard outside my window as I write this. Am I looking forward to spring? You bet your bottom dollar I am—as is everyone else in Montana. Our hope is that this recent arctic blast will be winter's last and that warmer days are just around the corner.

Every year between March 19 and March 21, the spring equinox occurs, when the northern hemisphere of the earth slowly starts to tilt wards the sun, winter ends, and spring begins. This year it occurs on March 20th.

For the past several years, we have invited wildlife enthusiast, naturalist, and wildlands adventure guide Hobie Hare out to Dunrovin Ranch to help us celebrate the changing seasons. Hobie will join us on Thursday, March 21st at 2PM for a broadcast to share his spring observations and help us connect with nature, no matter where our feet are!

Watch for These Dates in March 2019

3	Sunday	2PM	Broadcast: DIVAS Training
5	Tuesday	2PM	Broadcast: Introduction to Hal and Harriet
7	Thursday	2PM	Broadcast: Intro to Captains Lewis and Clark
10	Sunday	2PM 6PM	Broadcast: DIVAS Training Program Great American Criminal Trials
12	Tuesday	2PM	Broadcast: Mrs. Goose on the Osprey Nest
14	Thursday	2PM	Broadcast: Science Lab Aurora
17	Sunday	2PM	Broadcast: DIVAS Training
19	Tuesday	2PM	Broadcast: Taking down the nest bird feeders
21	Thursday	2PM	Broadcast: Celebrating Spring
24	Sunday	2PM	Broadcast: DIVAS Training Program
26	Tuesday	2PM	Broadcast: Intro to ponies Bonnie and Clyde
28	Thursday	2PM 6PM	Broadcast: Science Lab Milky Way Great American Trials Videos
31	Sunday	2PM 6PM	Broadcast: DIVAS Training Program Book Club: An Unfinished Life

Listed times are in the US Mountain Time Zone.

All broadcasts occur on the Ranch Web Camera Broadcast Channel.

The count down for ospreys' return to their nest begins!
